

## May Science Cafe

# Forbidding Science: Are There Things We Just Shouldn't Know?

### Dr. Dave Guston

Professor, Political Science  
Director, Center for Nanotechnology in Society  
at Arizona State University

### Dr. Stuart Lindsay

Professor - Physics; Chemistry & Biochemistry  
Director, Center for Single Molecule Biophysics  
Biodesign Institute, Arizona State University

### Dr. Roy Curtiss

Professor, School of Life Sciences  
Director, Infectious Disease and Vaccinology  
Biodesign Institute, Arizona State University

Is some science simply too dangerous? If so, should it be forbidden? Scientists from diverse backgrounds will explore how we can deal with these difficult questions.

**Friday, May 18, 2007**

**5:30 - 6:30 pm**

**Arizona Science Center**

600 E. Washington Street  
Phoenix, AZ  
602-716-2000

**Free Admission to Science Cafe!  
Reduced Ticket to Body Worlds Exhibit!**

Science Cafes are informal discussions that bring together members of the community and university scientists, to discuss how science and technology can change the future.

In the typical cafe, a scientist speaks for 5-15 minutes on a topic, with the rest of the time for the public to ask questions and present concerns.
