

January Science Cafe

A Drop to Drink: What Could Wind Up in Our Water?

Friday, January 21, 2011
5:30 - 6:30 pm
Arizona Science Center

600 E. Washington Street
Phoenix, AZ
602-716-2000

Dr. Paul Westerhoff

**Professor, School of Sustainable Engineering
and The Built Environment**

**Civil, Environmental and Sustainable Engineering Program
Ira A. Fulton School of Engineering
Arizona State University**

Meredith Gartin

**Doctoral Candidate, Global Health
School of Human Evolution and Social Change
Arizona State University**

What new challenges do new technologies present to our water quality? What do we suspect, what do we know, and what can we do about it?

Science Cafes are free, informal discussions that bring together members of the community and university scientists to discuss how science and technology can change the future.

In the typical cafe, a scientist speaks for 5-15 minutes on a topic, with the rest of the time for the public to ask questions and present concerns.

Teachers receive 1 hour professional development for each cafe attended
