

February Science Cafe

Invention Then and Now: Ancient and Modern Materials

Friday, February 18, 2011
5:30 - 6:30 pm
Arizona Science Center

600 E. Washington Street
Phoenix, AZ
602-716-2000

Kostalena Michelaki
Associate Professor
School of Human Evolution and Social Change
Arizona State University

Sandwip Dey
Professor
School for Engineering of Matter,
Transport and Energy
Ira A. Fulton Schools of Engineering
Arizona State University

The more things change, the more they stay the same? Come explore the bricks and mortar of how all sorts of materials have been used across the centuries.

Science Cafes are free, informal discussions that bring together members of the community and university scientists to discuss how science and technology can change the future.

In the typical cafe, a scientist speaks for 5-15 minutes on a topic, with the rest of the time for the public to ask questions and present concerns.

Teachers receive 1 hour professional development for each cafe attended
