

## May Science Cafe

# Forbidding Science: Are There Things We Just Shouldn't Know?

### Dr. Daniel Sarewitz

Professor, School of Life Sciences  
Director, Consortium for Science,  
Policy and Outcomes  
Arizona State University

### Dr. Roy Curtis

Professor, School of Life Sciences  
Director, Infectious Disease and Vaccinology  
Biodesign Institute, Arizona State University

Is some science simply too dangerous? If so, should it be forbidden? Dr. Sarewitz and Dr. Curtis will explore how we can deal with these difficult questions.

**Friday, May 18, 2007**

**5:30 - 6:30 pm**

**Arizona Science Center**

600 E. Washington Street  
Phoenix, AZ  
602-716-2000

*Free Admission!*

Science Cafes are informal discussions that bring together members of the community and university scientists, to discuss how science and technology can change the future.

In the typical cafe, a scientist speaks for 5-15 minutes on a topic, with the rest of the time for the public to ask questions and present concerns.
